

Predicting progression into septic shock

```
graph TD; A[Predicting progression into septic shock] --> B[Using time-series data of vital signs + actual time-series data of SOFA score]; A --> C[Using time-series data of vital signs + predicted time-series data of SOFA score];
```

Using time-series data of vital signs
+
actual time-series data of SOFA score

Using time-series data of vital signs
+
predicted time-series data of SOFA score
